

## West Lampeter Township

852 Village Road, Box 237  
Lampeter, PA 17537  
www.westlampeter.com

# The LampPost

Issue 53

Winter 2016

### Township Meeting Schedule

#### Board of Supervisors

2nd Monday of each month  
(except January)  
at 7:00 p.m.

#### Planning Commission

3rd Thursday of each month  
at 7:00 p.m.

#### Park & Recreation Board

1st Wednesday of each month  
at 7:30 p.m.

#### Zoning Hearing Board

2nd Tuesday of each month  
at 7:00 p.m.

All meetings are held at the Township Office Building located at 852 Village Rd. Check the website for agendas and minutes.

### General Information:

www.westlampeter.com

#### Township Administration

Phone: 464-3731

Fax: 464-5047

Email:

township@westlampeter.com

#### Police Department

Non-Emergency: 464-2421

Real Estate Taxes: 299-8222

School Taxes: 464-3311

### Board of Supervisors

Barry L. Hershey,  
Chairman

Terry L. Kauffman,  
Vice Chairman

Robert E. Patterson,  
Secretary/Treasurer

Randy R. Moyer  
Geoffrey E. Beers

## 'WHAT'S GOING ON AT THE CORNER?'

Calls at the township are received almost daily with questions about what the red brick building on the corner of Lampeter and Village roads will be when the work is done. The answer? A planned 88-seat café quite similar to a Panera's.

The building owner lives in West Lampeter and has made a significant investment to preserve the historic structure and enhance the Village of Lampeter. The 3,200 square feet addition has been designed to match near perfect to the original Lampeter Tavern originally built around 1760. The building owner also hopes to have an area for groups and small meetings on the second floor. The second phase of the project may include an access drive on Village Road, an outdoor pavilion and additional parking.

An opening date has not yet been announced, but keep watch for more information here in the newsletters, on the township's website and Facebook page.

Future café at 1702 Lampeter Road

## Congratulations Senator Smucker!

Township resident, former Township Supervisor and current State Senator for the 13th District, Lloyd K. Smucker won his bid to represent the 16th Congressional District in Washington, DC!

Finishing his second term in the State Senate, Smucker will begin his duties as a U.S. Congressman in January, 2017.

His quarterly article is on page 2 of this newsletter.

## HARRISBURG HAPPENINGS

### **Five New Laws Take Aim at the Heroin Epidemic**

By State Sen. Lloyd Smucker

Shocking videos of young mothers, teenage couples, and even grandparents overdosing on heroin have brought today's drug epidemic into sharp and disturbing focus. Every day, it seems a young life is pictured in the obituaries, lost suddenly to an addiction often triggered by legal prescriptions for Oxycontin, Vicodin and other opioids.

Pennsylvania's General Assembly has acted quickly to attack this high-stakes danger. With drug overdoses taking the lives of seven Pennsylvanians a day, on average, it is clear that this epidemic does not discriminate, and time is of the essence.

Nearly 3,400 drug-related overdose deaths were reported in the Keystone State in 2015, an incredible increase of more than 238 percent over 2014. In approximately four out of five of those deaths, the presence of heroin or at least one opioid was reported. Many of these addictions begin, not on an inner-city street corner, but in someone's own medicine cabinet.

To try to turn the tide, these bills were signed into law by the Governor on November 2<sup>nd</sup>:

- Senate Bill 1202 requires prescribers and dispensers to receive initial and continuing education in pain management, addiction recognition, and effective opioid use. They will also be required to check the newly created Prescription Drug Monitoring Program Database (PDMP) each time a patient is given an opioid or benzodiazepine, and to update the database within a 24-hour period, instead of the current 72 hours.
- Senate Bill 1367 will limit prescriptions for minors to seven days, unless a medical emergency puts the child's health or safety at risk. The bill includes exceptions for cases involving chronic pain, cancer treatment or hospice care.
- Senate Bill 1368 calls for a medical training facility to implement an opioid-related curriculum focusing on chronic pain management that minimizes the use of opioids; instruction on safe methods of prescribing controlled substances; identification of patients who are at-risk for opioid addiction; and teaching medical students how to manage substance abuse disorders as a chronic disease.

Another measure is House Bill 1699, which created the Safe Emergency Prescribing Act limiting the quantity of opioids which may be prescribed to a patient seeking treatment in a hospital emergency department or urgent care center.

Another piece of legislation boosts the number of locations where people can drop off unused prescription drugs.

(See "*Heroin Epidemic*" continued on page 8)

## HARRISBURG HAPPENINGS

### 2015-16 General Assembly Session in Review

By State Rep. Keith J. Greiner

Throughout the past two years in the General Assembly, there have been nearly 4,000 pieces of legislation introduced, with only slightly more than 200 bills being signed into law. While there is certainly no shortage of issues that need to continue to be addressed, I am thankful that progress was made in a number of policy areas. Here is a highlight of some of the many issues that were addressed by the General Assembly in the 2015-16 legislative session:

- Two adopted state budgets that did not include increases in broad-based taxes. As a member of the House Appropriations Committee, I worked hard to protect the taxpayers while crafting these budgets. While ultimately, I have some disagreements with this year's budget, I believe it is prudent and makes invests in education and other important priorities.
- Adopting a fair Basic Education Funding Formula is another critical success of this session. The new formula will more equitably distribute state funds, especially for schools in Lancaster County. This new formula brought in millions of dollars in new funds for the three school districts in the 43<sup>rd</sup> District.
- I was pleased to work with the General Assembly to address Pennsylvania's drunk-driving laws. Act 33 of 2016 will require certain first-time DUI offenders to use an ignition interlock device, which prohibits them from operating a vehicle if they are intoxicated. This legislation will unquestionably save lives across the Commonwealth.
- Two pieces of legislation will also bring transparency and accountability to labor negotiations across the Commonwealth. The first requires the state's non-partisan Independent Fiscal Office to evaluate the costs of any proposed labor agreements with public sector unions, to ensure that the General Assembly and public is aware of how much the contracts will cost. Additionally, the General Assembly eliminated a loophole in state law, which allowed union members to engage in harassment, stalking and threats of using weapons of mass destruction if done as part of a labor dispute.

While these are just a brief overview of some of the issues addressed by the General Assembly, there is no question that there remains much work to be done to confront the challenging problems facing Pennsylvania.

The next session of the General Assembly must continue to work on important priorities such as pension reform, property tax reform and the opioid and heroin crisis. Each of these issues has their own unique challenges, but I remain committed to working to solve them.

If my office may ever be of assistance with any state-related issues, please do not hesitate to contact my office located in the West Lampeter Township Building at 717-464-5285 or email me at [kgreiner@pahousegop.com](mailto:kgreiner@pahousegop.com).

Respectfully yours,

Keith J. Greiner, CPA  
State Representative, 43rd District  
852 Village Road  
Lampeter, PA  
(717)-464-5285  
[kgreiner@pahousegop.com](mailto:kgreiner@pahousegop.com)

## WEST LAMPETER TOWNSHIP POLICE NEWS

### **OFFICERS COVEY, SHUBROOKS AND EISENHOUR HONORED**

At recent Township Supervisors' meetings, Officer Dave Covey, Officer Evan Shubrooks and Officer Joseph Eisenhower received commendations for outstanding police work.

Officer Covey was commended for actions taken on July 23 of 2016. Officer Covey was investigating a minor traffic accident when he observed that a 4 year old boy in one of the vehicles had injuries inconsistent with the accident. Through Officer Covey's investigation it became obvious to him that the 4 year old boy was the victim of abuse. Upon interviewing the family member who was driving the vehicle, Officer Covey learned that this family member also had suspicions that this boy was being abused. Through the investigation Officer Covey learned that these incidents occurred within the jurisdiction of the PA State Police and he immediately notified them. The investigation was subsequently turned over to PSP's Criminal Investigative Unit for investigation and prosecution. Had it not been for Officer Covey's attentiveness and determination, it is very likely that this abuse would have continued.

Officer Shubrooks was commended for actions he took on August 28 and again on September 5. On August 28, Officer Shubrooks responded to a parking lot on the 2100 block of Willow Street Pike for an unconscious person. Upon arrival he realized that the male was experiencing signs of a heroin overdose and was not breathing. His face was turning blue. Officer Shubrooks administered a dose of naloxone to counteract the effects of the opioids. Shortly thereafter the male began breathing on his own. Present with this male were the male's two sons, a 4-year old boy and a 4-month old boy. After saving this man's life, Officer Shubrooks notified Children and Youth Services to ensure the well-being of the two children. On Monday September 5, Officer Shubrooks was dispatched to another suspected heroin overdose at a residence. The 24 year old male was found unconscious on the bathroom floor and labored breathing. Again, Officer Shubrooks administered the drug naloxone to counteract the effects of the opioid and the male regained consciousness. In a matter of 8 days Officer Shubrooks saved 2 lives!

Officer Joe Eisenhower was officially commended at the November Township meeting by Chief Wiczkowski for the actions he took on October 19, 2016. Officer Eisenhower was dispatched to the railroad bridge between South Prince Street and New Danville Pike for a suicidal subject. He arrived and immediately established a rapport with this subject, who was experiencing a mental health crisis. Throughout much of the encounter this person was asking Officer Eisenhower to shoot him. Using his training and experience, Officer Eisenhower convinced this person to surrender a knife with which he was threatening to harm himself. Recognizing that the bridge was too narrow and walking out there would be too dangerous, Officer Eisenhower sought the help of Willow Street Fire personnel and used a ladder truck bucket to retrieve the knife. After approximately 90 minutes of communication, Officer Eisenhower was able to convince this person to surrender to seek a mental health evaluation. He again used the ladder truck bucket to take protective custody of the subject. We see on an almost daily basis how these types of incidents can go horribly wrong. Officer Eisenhower's calm and professional demeanor in handling this crisis situation allowed for a positive outcome. We are proud of the manner in which Officer Eisenhower handled this situation.

Congratulations to all three of these outstanding officers!

Chief Wiczkowski presenting the commendation to Officer Dave Covey.

Chief Wiczkowski presenting the commendation to Officer Evan Shubrooks.

Chief Wiczkowski presenting the commendation to Officer Joseph Eisenhower.

## FRIENDS OF THE WEST LAMPETER TOWNSHIP POLICE FORCE

### THE LATEST “FRIENDS” NEWS

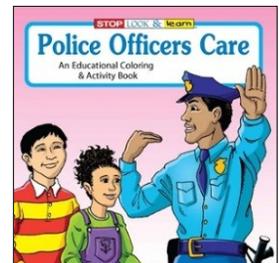

Take a look at our latest purchase: two 60 inch TV monitors and associated mounting hardware for the squad room. One of the monitors displays a current national and global newsfeed. Often crimes occurring in other states can have a domino effect and migrate into local areas. If an officer is out on patrol, they may miss breaking news bulletins and this permits the opportunity to keep up with events that may affect all of us.

The second monitor has a split screen, which allows officers to monitor the holding cell, all building security cameras / entrances, and the Lancaster County Dispatch feed. It provides real-time feed to all county police departments to see what officers are currently working at which incident (along with its location), should back-up or assistance be needed. Both screens can be easily seen throughout the squad room, unlike the previous 17 inch screens.

An important way to promote support for law enforcement and civic pride begins at a childhood level. Children are naturally excited to meet police officers and learn more about what they do. To this end, the Friends have purchased a variety of items which may be given to our local students:

- Junior Detective self-adhesive badges (these were VERY popular at the Fair!)
- Temporary Tattoos: “Buckle Up for Safety” and “Junior Crimefighter”
- “Take a Stand Against Bullying” stickers
- “Support Law Enforcement” silicon wrist bands
- Coloring Books with say no to drugs and police support themes also were completely depleted during the Fair. They have since been restocked.

Officers will be distributing these items to the children at upcoming events and class station tours.

Finally, a sincere “thank you” to all who came out to visit us at the West Lampeter Fair this year. The weather may not have cooperated but we appreciate your support of our officers and West Lampeter Township.

Lisa Greybill, FOF

## **PUBLIC WORKS DEPARTMENT**

### **WINTER REMINDERS!**

**SNOW EVENTS:** Vehicles must be moved off the roadways during a snow event. This is a **MANDATORY** requirement set by township ordinance (WLT Code, Chapter 262, Section 22.1) to assure the quickest and safest way for the Public Works Department to plow the roadways open for travel. Remove any basketball stands from the street as well.

Check your mailbox post **NOW** to repair or strengthen **BEFORE** the first snow event. Report any yard/curb damage or mailbox knock-overs to the office at (717) 464-3731, or use the township's website's "Report a Concern" to the left of the homepage. Yard repairs will be made in early spring.

Remember it is also required that **SIDEWALKS** be cleared of snow and ice within 24 hours following a snow or ice event (WLT Code, Chapter 235, Section 25). Clear snow of any fire hydrants in front of your property, if you are able, to assist the fire departments in the event of a fire emergency. Keep storm drains clear of leaves and snow. Notify the office if you notice any potholes that need repair.

And **PLEASE - DO NOT THROW** or **BLOW** snow onto the street once it has been plowed!!

Your cooperation during this coming winter season is greatly appreciated!

### **LOCUST LANE IMPROVEMENTS PROJECT UPDATE**

Work has begun on the Locust Lane road and sidewalk improvement project. Stormwater improvements have been completed. Curbs, sidewalks and pavement leveling will be done and completed in December of this year. Final wearing course on **ALL** of Locust Lane will be installed in 2017. Final yard restoration will take place in the spring of 2017. Prepare for road closures at times during the work. Take alternate routes when necessary and follow all road workers' or flaggers' instructions.

### **NEW PUBLIC WORKS SALT SHED**

The Public Works Department received an early Christmas gift this year - a brand new salt shed to store tons of road salt for the coming winter season, and those to come!

The 2,400 sq. ft. concrete and wood frame shed was built by Agpoint Construction Services, who received the contract in August and began work in September.

## RECYCLING COMMITTEE

### Another Successful Community Collection & Shredding Event!

Cars were lined up early to participate in the Township's annual shredding event on Saturday, November 12th. After nearly 3 hours it was estimated that over 230 cars came through. Blue Mountain, who provides shredding services, estimated approximately 5,000 lbs of paper was shredded on site. Shredded materials will be recycled. The shredding was provided for free thanks to our sponsors – GR Mitchell, Inc., Lampeter Plastics Exide Technologies, and Arro Consulting, Inc. In addition to paper shredding, the Township offered electronic, cardboard, magazine and Styrofoam recycling drop-off to be recycled. More than five pallets of electronic waste were collected!

The next community collection day is January 7, 2017 from 9am-noon behind the Township Municipal Building. The shredding event is an annual event held in November. The Township allows for cardboard and magazines to be dropped-off at any time in the designated dumpsters behind the Township Municipal Building.

## Community Recycling Event

Saturday, January 7, 2017

9:00 a.m. until noon

### Collecting:

Styrofoam, lead-acid car & truck batteries,  
CDs/DVDs, VHS tapes, digital electronics,  
used blankets & towels, wrapping paper.

For a list of e-waste items being collected please visit <http://www.egreenrecycling.com/accept.php>

## Christmas Tree Collection

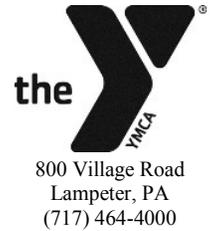

January 9 & 10

(on your normal trash collection day)

Place curbside the night before pickup.  
No tinsel, tree bags, or decorations.

## **What is the difference between the YMCA and a gym?**

Commitment to the community.

Yes, the YMCA offers exercise classes and fitness equipment.

Yes, the YMCA has a pool and basketball courts.

However, as a nonprofit, charitable organization, the YMCA has a commitment to nurture and strengthen the community.

It's a commitment to help all children reach their full potential through programs that foster learning like our pre-school and summer camps and build self-confidence through activities like youth sports and swimming programs.

It's a commitment to support families and adults in all stages of life in maintaining healthy lifestyles, and helping individuals regain health and wellness after chronic illness.

Most importantly, it's a commitment to ensure these programs and services are available to everyone regardless of their age, income or background.

When you join the Lampeter-Strasburg YMCA, you're committing to more than becoming healthier; you're supporting the values and programs that strengthen your community.

*Since 2011, the Lampeter-Strasburg YMCA has provided more than \$300,000 in direct financial assistance to individuals and families in the area and more than \$600,000 worth of complimentary facility use for community organizations and programs.*

Learn more about Y membership and programs by visiting [www.lancasteryymca.org](http://www.lancasteryymca.org) or stopping by the Lampeter-Strasburg YMCA for a tour.

(*"Heroin"* continued from page 2)

I have also supported new laws to provide legal protection for witnesses or Good Samaritans providing medical help at the scene of an overdose, and to allow naloxone, a synthetic drug that blocks opiate receptors in the nervous system (often known by the brand name Narcan) to be prescribed to a third party, such as a friend or family member, and administered by law enforcement and firefighters.

The Physician General has also signed a standing order for Narcan at every pharmacy, including locally, at CVS.

These measures are all pieces to a larger puzzle. While drug addiction is preventable, it will take a continuing and coordinated effort across all spectrums to address it.

Sen. Lloyd K. Smucker  
123 North Prince Street  
Lancaster, PA 17603  
(717) 397-1309

## COMMUNITY NEWS YOU CAN USE!

Are you  
READING  
This Year's  
**BOOK**  
oboc.org

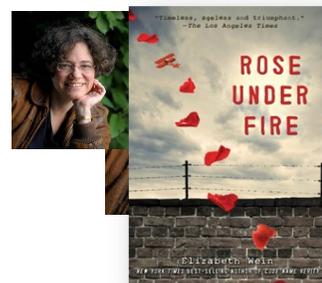

### 2017 One Book, One Community Title

This year, more than eighty public libraries in Berks, Cumberland, Dauphin, Lancaster, Lebanon, Perry and York counties, five Harrisburg Area Comm. College campus libraries, and a variety of new and returning community partners are collaborating to present our 14<sup>th</sup> title, *Rose Under Fire* by Elizabeth Wein. The unforgettable story of Rose Justice, a young pilot with the Air Transport Auxiliary during the Second World War, is forged from heart-wrenching courage, resolve, and the slim, bright chance of survival. Wein, author of the critically-acclaimed and best-selling *Code Name Verity*, has ties to Central Pennsylvania. Reading will begin on January 2, 2017 with free book discussions and related events at libraries, colleges and partner book stores held throughout the winter and early spring.

## Tree Lighting Ceremonies

**Dec 1 - Twp Bldg/Lampeter Fire Co.**

**Dec 2 - Willow St. Fire Co.**

Live Music! Members of L-S High School Band  
Refreshments! Family Fun for Everyone!

**At Thursday's Dec 1 event: Donations of gently used or new coats and new hats, scarves, and mittens will be collected in the fire hall, and benefiting the L-S Community Closet: [www.lscloset.org](http://www.lscloset.org)**

**Please consider helping children in our community stay warm this Winter.**

Special Thanks:

Lampeter and Willow Street Volunteer Fire Departments, Strasburg Women's Club,  
Cadette Troop 71264-Hans Herr Girl Scout Community, and Cub Scout Pack 286

## STORMWATER CORNER

**Water Quality Teaching at Lancaster Mennonite Middle School** (Figure 1): On Wednesday, October 19<sup>th</sup>, Charity Kadwill was invited to speak to the 8<sup>th</sup> grade science classes at Lancaster Mennonite Middle School for the day. The students had been learning about water quality and the science department staff felt that a discussion about stormwater quality and functions tied in nicely to the potable water quality they had studied thus far. The students learned about stormwater structures, basins, drainage areas, and even had the opportunity to conduct MS4 outfall inspections, as well as test the water quality on an illicit discharge concern. You can read more about the experience here on the Lancaster Mennonite Middle School Blog: <https://lmsconnect.wordpress.com/2016/10/27/immersed-an-h2o-experience-its-exhibition-time/>

Figure 1: LM Middle Schoolers studying an outlet structure

Figure 2: Mill Creek Volunteers

Figure 3: Stenciling Volunteers from the Exide Corporation

**Mill Creek Stream Clean-Up** (Figure 2): On Saturday, October 22<sup>nd</sup> Township staff and 8 local volunteers collected trash along a 2-mile stretch of the Mill Creek. The group started at Strasburg Pike near Flory Park and worked their way west along the creek banks towards Lampeter Road. It was a cold, windy, and rainy day, but the volunteers were diligent and collected about 30 bags of trash and various large items. Items of trash included pallets, tires, plastic bags, plastic buckets, cans, and bottles. We even managed to pull some wooden yard furniture out of the creek! Many of these items are carried into the stream by stormwater runoff. Please remember to pick-up trash around your yard before it gets washed away into a stormwater swale or pipe.

**Inlet Stenciling at Heatherfield** (Figure 3): On Friday, November 4<sup>th</sup> municipal staff and volunteers from the Exide Corporation, generously donated their time to stencil inlets in the Heatherfield Development in Willow Street. The message that was painted in front of the inlets, “No Dumping Allowed, Drains to Pequea Creek” is a friendly reminder that the grass clippings, soapy water, or oily discharge you are thinking of dumping down a storm inlet is not the proper disposal method, and will have a negative impact on the environment of your local watershed. If you are unsure of where to dispose of certain fluids or trimmings, inquire with your Township Stormwater Coordinator, [charity@westlampeter.com](mailto:charity@westlampeter.com) or (717) 464-8019.

**Leaf Cleanup Reminder:** Leaf cleanup is in full swing here at the Township! Here is a helpful reminder that leaf litter that is bagged will be picked up on regular trash collection days. Leaves & Debris can clog stormwater pipes and pollute streams with excessive fertilizer and nutrients.

**Help Us Prevent Illicit Discharges** We need your help in identifying illegal dumping and illicit discharge activity. If you observe anyone dumping materials into a storm drain, or know of someone who has an illegal connection into a stormwater pipe, then please call 464-8019.

## COMMUNITY DEVELOPMENT DEPARTMENT

### PROPERTY MAINTENANCE CODE

West Lampeter Township has a Property Maintenance Code which requires that all residents maintain the exterior of their properties free of junk and trash.

Extra trash and oversized trash tags can be purchased at the Township Building during regular business hours. The Property Maintenance Code also states that properties shall be free of any non-operative or unlicensed motor vehicles. No motor vehicle shall be in a state of major disassembly, disrepair, or in the process of being stripped or dismantled. Violations of the Property Maintenance Code are subject to fines and penalties.

### ON-LOT SEWER INSPECTIONS EVERY THREE YEARS

West Lampeter Township has taken on the responsibility of monitoring existing on-lot sewage disposal systems (septic systems) as required by the State Department of Environmental Protection through the Township’s Act 537 – Sewage Facilities Plan.

The process includes locating individual systems, pumping of the tanks, checking the condition of the treatment tank, checking the absorption area, cesspool or seepage pits, subsurface and raised beds and trenches and all associated components. This visual inspection is to ensure proper functionality and maintenance.

The program, which began on January 1, 2007, involves the property owner contacting a registered pumping contractor every three years. Please see below for the list of our registered pumping contractors. You may only utilize pumping contractors registered with the township. If you have a working relationship with a pumper/hauler not registered with us, please let us know and we will follow up to see if they would be willing to participate in our program.

In order to perform the required inspections, all pumping must occur through the access manhole so please make sure it is accessible. The pumping contractor will pump and inspect your system then complete a township report. This report will be left on site by the pumper/hauler for you to submit to the township, along with a check for \$25. (made payable to West Lampeter Township) All registered pumping contractors have been supplied copies of this report or one can be downloaded from this website.

Notices and follow-up notices have been sent to those properties required to be inspected this year. The deadline for properties to complete their inspections is December 31, 2016. The next year’s properties will begin receiving notices to complete the inspection beginning in January 2017.

Approved haulers are listed below:

Devonshires Septic Services	786-1998	Red Rose Sanitation	295-7673
W. Davis & Sons	587-0800	Frank Sears Sanitation, LLC	442-8609
